

Commercial Pleasure Craft – Innovative project

Applications for a commercial licence may be considered for innovative projects involving use of pleasure craft, and authentic craft, security craft and annex

An Innovative Project in the sea-based sector refers to:

1. Any activity that does not exist in Mauritius;
2. Any technological advancement used in connection with the operation of an existing activity that contribute towards the upgrading of the activity;
3. Exclusive services provided to an existing activity that upgrades the standard of the activity to a higher level; and
4. Eco-friendly activities that meet the sustainability needs of the industry through the use of non-polluting equipment, practices and processes.
